

RepDPF

Repair set, pressure line

Using this repair kit, defective connecting hoses between the diesel particle filter (DPF) and the differential pressure sensor can be quickly and simply replaced. Pine marten bites may also be responsible for damage, and not just mechanical and thermic influences. That's why this set is supplied with protective hoses

that are resistant to both high temperatures and pine marten bites. They protect the silicone pressure lines from external influences. The spring band clamps included in the scope of supply ensure that the hoses are held securely.

Chemical Properties: Oil resistant
Scope: 10,0 to 12,5 mm
 11,0 to 13,5 mm
 11,5 to 14,0 mm
 12,5 to 15,0 mm

Material: Silicone
Info: with connection line
 with protection hose
 with marten protection
 with clamps
