Ball joints for vans / transporter

to fit

VW T3,T4, LT II / Mercedes Sprinter / Renault Trafic / Ford Transit*

as OE

Problem

Intense strain of the ball joints due to overloading of the vehicle and fast driving

Effect

- Worn out ball joints
- Noise from the axles
- Insufficient driving safety

Solution

- Use of extremely long-wearing plastic ball joint sockets (in aviation tried and tested material)
- MEYLE high-tech grease

Advantage

Ball joints with long service life

- Extra strong self-locking nut
- High quality rubber sleeve with blue clamping rings
- Steel ring
- Precision ball pin, lubricated with MEYLE high-tech grease from marine application and wind energy research
- Plastic seat
- Robust steel case with black passivation (special process to reduce corrosion)
- Self-locking nut with microencapsulation
